

# Curtain Guide

*Don't*

*Do*

Curtains should be about 4-6" outside the window frame on both sides. They should also be floor to ceiling to give the illusion of height.

## *Measurements*

Floor to ceiling (in inches) :

A.) \_\_\_\_\_

Width of windows plus 8-12" divided by 2:

B.) \_\_\_\_\_

Curtain Minimum per panel =  
Height of A & Width of B
